

Vessel Inspection

- Regular inspection is required for self-pressurizing type liquid nitrogen vessels.
- Confirm the “date of production” and the previous “date of inspection”.
- Contact your local supplier of the vessel or gas (or consult the Cryogenic Research Center).

Date of production of the vessel	Inspection frequency
March 31, 1989 or earlier	every year
April 1, 1989 or after	every 2 years (if more than 20 years since production)
	every 5 years (if less than 20 years since production)

Filling of vessels overdue for inspection with LN₂ is prohibited
