

X-XX English title should be written here

日本語タイトルがある場合は、ここに記入 (Japanese translation of the title can be written here. If not, please delete the text here).

Helium-kun^{A,B}, Chisso-chan^{A,B}, and Helios-kun^B

^ALiquefaction Division; ^BMascot Division, Cryogenic Research Center

The abstract should be written *within a single page*.

Participants are from a variety of fields. Please write in plain words.

References should be listed at the bottom of the abstract. In the text, they should be indicated like [1] with a number in square brackets.

1. Insert figures and tables

You can use figures and tables. Here are examples for figures and tables (Fig. 1 and Table I). *The whole size of the PDF file should be less than a few MBs*. If it exceeds the limit, please reduce the file size of figures appropriately.

350 dpi is recommended
for bitmap images.

CMYK is favoured.

FIG. 1. Example figure.

TABLE I. Example table.

a	b	c	d
1	2	3	4
5	6	7	8

If you put small figures in the text, please wrap text around the figures. The example FIG. 2 uses wrapfigure environment in *wrapfig* package.

EPS files are favoured. For JPEG or PNG files, bb or xbb files should be created. If not, please input the size information in the [] just after the \includegraphics like “,bb=0 0 width height”.

2. References

References should be shown in a standard format (such as APS or Science) using thebibliography environment. The horizontal bar is automatically inserted above the reference section.

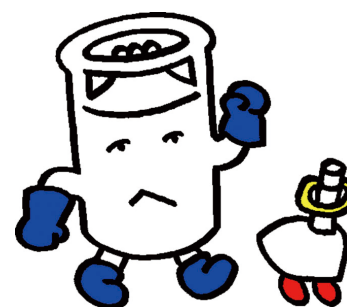

FIG. 2. Example figure 2.
